Subject: RE: Did you work on Craft Turney samples?

Yes... Meredith reminded me that I did all the analysis on the NPD. Upon Diane's recommendation, I shot on the NPD and it was able to be detected. Johnson never got his instrument to detect the analyte at the reporting level so I ended up analyzing all the samples by NPD.

Thank you very much
Lisa

I did extraction work and Procurement for the project.

Thank you very much
Lisa

Please let me know if you did any work on Craft Turney and what the nature of the work was. Plus, let me know if anyone outside our section or in our section and not here this week worked on it that you know of.
